PROJECTS

- **E-commerce Website – TejasFurniture.in**-Developed a full-fledged e-commerce platform using React, Node.js, Express, and MongoDB. Implemented dynamic category-based product listing, combo offers, new arrivals, and top-selling sections. Designed an intuitive UI with Tailwind CSS and ensured seamless backend integration for efficient product management.
- **MERN: Food Delivery Website**-I developed a Food Delivery App using the MERN (MongoDB, Express.js, React.js, Node.js) stack, with a focus on creating a seamless user experience for browsing restaurants, placing orders, and tracking deliveries.
- **Msc-(Interactive Voice Responsive Sysytem) (IVRS)** is an automated telephony system that interacts with callers, gathers information and routes calls to the appropriate recipient.
- **Bsc _"A System For Automatic Notification For Automotive Accidents"** We design a circuit that used for location of the vehicle using GPS and GSM Location
